WHAT IS IT

Products formulated to guarantee feed producers the certainty of obtaining feed capable of meeting the needs of their piglets from the first days after weaning. These are supplements that already include the best available on the international market today to optimize growth performance and to avoid the use of antibiotics.

BENEFITS APPROVED

- Maintenance of growth homogeneity of piglets
- Reduced risk of post-weaning diarrhea
- Perfect balance of amino acid needs
- Creation of a balanced and stable microbiota
- High possibility of nutrient digestion and assimilation

HOW TO USE IT

The range of supplements intended for the production of weaning feeds consists of a series of products starting from a percentage of inclusion of 1% up to products to be used at 10% that already include raw materials of high biological value.

WHAT IT CONTAINS

Vitamins, Trace elements, Amino acids, Acidifiers, Appetizers, Sweeteners, Enzymes, Plant extracts, Dried yeast from *Saccharomyces Cerevisiae*, Plasma, Probiotics, Prebiotics, Salts.
